PROJECTS

nwHacks

Organized logistics and
community events for
the largest hackaton in
western Canada

UBC-RMP

Chrome extension that
presents professor's ratings
from Rate My Prof on the
UBC course registration
page with an intuitive UI

Ubcbooker

CLI tool to book available CS
department project rooms
within UBC

EXPERIENCE

Stitch Fix

San Francisco Sep 2019 - Present

Platform Engineer, Runtime Infrastructure

- Managed an internal PaaS that released 400 deploys/day for 150 services
- Standardized metrics submissions across libraries to reduce org-wide billing
- Designed a deploy freeze feature based on feedback from the eng org
- Improved docker build speed by 15% using a build cache

Technologies: Ruby, Golang, Ruby on Rails, AWS, ECS, Terraform

Stitch Fix

San Francisco May 2018 - Aug 2018

Software Engineering Intern

- Built a service to manage purchase orders from various vendors
- Enhanced a microservice's API response time by 2x by improving query
- Improved contract testing workflow between microservices with Pact

Technologies: Ruby, Ruby on Rails, Pact

Ubyyssey

Vancouver Oct 2017 - Apr 2018

Web Developer

- Enhanced Ubyyssey.ca website and Dispatch - a custom-built open source publishing platform for editors
- Coordinated workload and gave technical workshops to volunteers
- Interviewed and hired other web developers

Technologies: React, Redux, Django, Google App Engine

BlackBerry

Ottawa Jan 2017 - Aug 2017

Student Development Intern

- Built Azure cost threshold management dashboard for the platform team
- Built hypervisor deployment and approval service
- Refactored Azure cost forecast diagram to render 35% faster
- Introduced automated integration testing system to the team

Technologies: Ruby on Rails, Elasticsearch, Zabbix, OpenNebula

Prynt

San Francisco June 2016 - Dec 2016

Web Development Intern

- Built product recommendation feature within the e-commerce web app
- Introduced international Paypal payment option to the checkout flow
- Implemented responsive design across the entire website

Technologies: Ruby on Rails, React, Redux, Materialize CSS
